

mediven[®] cosy 450

Flexible. Supple.
Freedom of movement.

medi

The new mediven cosy 450 and mediven cosy 450 toe caps enable an even more patient-focused availability from the medi flat-knit range. With moderate wall stability and high flexibility, mediven cosy 450 places itself between the strong variant of mediven 550 and the softer mediven mondi 350.

medi tip:

The unique design properties of mediven cosy 450 is particularly helpful for lymphedema and lipedema patients who live active lifestyles!

Benefits at a glance:

- ☆ **Flexible, soft knitted fabric** for maximum comfort
- ☆ **High longitudinal elasticity** easy to put on and optimum hold
- ☆ **Elastic panty top seams** for a better fit and more freedom of movement
- ☆ **Optimized, elastic gusset** for more comfort and improved climate exchange
- ☆ **New anatomical foot shape** for the perfect fit without wrinkling
- ☆ **New durable sole and heel** with mediven 550 material incorporated into foot sole
