ReadyWrap®

Clinically-effective and easy-to-use adjustable compression wrap.

ReadyWrap®

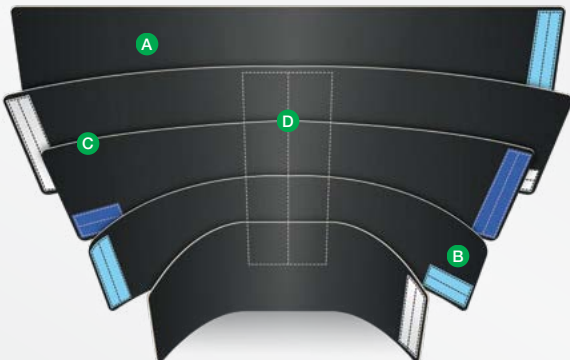

Clinically-effective and easy-to-use.

ReadyWrap® is an adjustable compression wrap for transitioning out of therapy into self-management during the daytime, nighttime, and during high or low activity.

 Off-the-Shelf or Custom*

 Day or Night

 High or Low Activity

ReadyWrap Calf

ReadyWrap Arm

Low-stretch material

Mimics short-stretch bandaging — the gold standard of treatment.

Color-coded straps

Provides easy step-by-step donning guidance.

50% Overlapping straps[§]

Helps prevent gapping.¹

Blocked support spine

Helps maintain garment form to support all-day wear.¹

Foam Padding

Cushioning at elbow and wrist provides comfort and evenly distributes pressure.

Modular design

Garments work effectively on their own or in combination.

Why choose ReadyWrap®?

ReadyWrap® features low-stretch straps that mimic short stretch bandaging — delivering effective compression therapy with its high working and low resting pressure.

To support patient compliance, ReadyWrap offers a unique color-coded visual guide for application and alternating strapping system to support one handed donning as needed.

With ReadyWrap, you can be certain your patients will have an effective and comfortable garment that easily adjusts to their limb and donning abilities.
